

## PRESSURE VESSELS

For over 40 years FTI's pressure vessel department clients includes NASSCO, Solar Turbines, Atlas Copco, Nikkiso, Cryoquip, and the US Navy. Our pressure vessels are manufactured with dissimilar metals including stainless steel, aluminum, copper nickel, and carbon steel. FTI completes pressure vessels according to their clients specifications including:

Full NDT

Hydro Testing

Complete fabrication

Coatings – interior/exterior

Machined flanges and piping welded to the units when required

And Much, Much More!
